

SVGA with Audio Cable

HD15 and Stereo 3.5 mm Plug, Male to Male, Black

Transmit sound and high-resolution video in a single-cable solution.

MANHATTAN® provides a single-cable solution for connecting a desktop or notebook computer to a video display system with built-in speakers. From classrooms to conference rooms, it's the ideal solution for use with projectors, flat-panel displays, switches and other video devices with a stereo input. The single-cable configuration prevents tangles and clutter while limiting connectivity errors. The heavy foil and braided shielding with thermal casing helps ensure that audio and video signals are properly transmitted with less distortion for the best possible quality.

Model	Length
326698	22.5 m (75 ft.)
326711	30.0 m (100 ft.)
