One Cable Does the Job

15.6-inch HD display with a single USB 3.0 cable for power and data transmission

Sleek and Ultra-portable

World's slimmest and lightest USB monitors with a metallic finish

Adjusting to Your Needs

Auto-rotating display bundled with the ASUS Smart Case – a two-way adjustable stand and protective sleeve

One cable does the job, adding a second monitor has never been so easy

The 15.6-inch MB168B portable USB-powered monitor needs just one USB cable for both its video signal and power to deliver up to a 1366 x 768 HD resolution[1]. Thanks to the higher bandwidth of USB 3.0, experience fast, fluid images from your connected device that makes having an on-the-go multi-display setup a reality. What's more, the MB168B is backwards compatible with a notebook or desktop PC USB 2.0 port[2].

1. Resolution varies by product SKU. Check ASUS reseller for exact specifications.
2. USB 2.0 connection may affect brightness settings and image quality.

Sleek and ultra-portable with a Zen-inspired design
